

RIVERPOINT CAMPUS

AED FACTS

(Automated External Defibrillator)

- ◆ Six of the seven buildings on Riverpoint Campus have AED machines. The Vet Clinic does not have an AED machine. Please become familiar with the AED location in each of these buildings.
 - *Academic Center—1st floor near the big screen TV
 - *Health Sciences Bldg—1st floor near room 163 in the EWU Dental Clinic and 3rd floor near the elevators and pay phone.
 - *Phase One—1st floor near 101 (EWU Student Services)
 - *South Campus Facility—across the hall from the Parking Office
 - *SIRTI—2nd floor lobby area
 - *College of Nursing—1st floor near elevators
- ◆ Health Sciences Building has 2 AED machines—1st floor near room 163 and 3rd floor near the elevators and pay phone.
- ◆ Health Sciences Building is the only building on campus that has pediatric pads. Pediatric pads are to be used on children between the ages of 1-8. After 8, use adult pads. If pediatric pads are not available for a child use the adult pads.
- ◆ Know the street address of the building you occupy. If you dial 911 to report an emergency, the dispatch operator will ask your location.
- ◆ Each AED machine has a label on the hard yellow case listing the street address of the building. The AED cabinet and the black storage case are both labeled with the street address.
