1. Use of the equipment must be scheduled in advance. Use the online scheduling system (LabArchives) to verify availability of the equipment and room population.

2. Flow Cytometry and Mass Spectometry: Only one person is allowed in the work area at a time.

3. Microscopy: Two people may be in the room at the same time. However, they must practice physical distancing.

4. Histology: Access is limited to service center staff.

5. Genomics: Access is limited to service center staff.

6. All individuals must wear appropriate PPE, which includes face mask, lab coat, and gloves. Safety glasses must be worn as appropriate. PPE must be maintained (regular cleaning).

7. Commonly touched surfaces (door handles, keyboards, chairs) must be decontaminated before and after use. A space disinfectant is provided.

8. Equipment must be cleaned before and after use. The SOPs for cleaning each piece of equipment can be found adjacent to the equipment.

NOTE: Researchers engaging in unsafe behaviors inconsistent with the guidelines may be asked to suspend research until they can implement appropriate measures.
